Fueling dreams with burning prizes,
A green embrace, a future bright,
Turning waste into guiding light.
The forest's bounty, wood and bark,
Transforming darkness into spark,
Harnessed power from roots and trees,
A dance of life upon the seas.
Manure, the earth's own gift,
Feeds the cycle, spirits lift,
Bioenergy's gentle flame,
Reducing guilt, avoiding shame.
Oh biomass, your humble might,
Ignites the dawn, fuels the night,
A testament to what can be,
A greener path for you and me.

Renewable, endless, as the seasons' dance,

Yet heed the call to give nature a chance.

Fossil fuels, ancient whispers beneath the earth's crust,

A finite story, in black and gold, a dwindling trust.

Once burned, the sky bears witness to our plight,

A reminder to choose what's clean and bright.

Water flows, a life-giving stream,

Powering cities, fueling dreams.

Biomass blooms in fields and trees,

Nature's bounty, if nurtured with ease.

Let us sing of balance, of care and respect,

For the resources we cherish, the future we protect.

In every poem, a plea, a hope for the land,

To sustain our world with a mindful hand.

This poetic approach emphasizes the beauty, importance, and urgency surrounding resource management.
